

A life with cavernoma. A spirit entirely my own.

Introducing STILL SACRED, by Emma

I live with a brain cavernoma and experience seizures, pain and numbness. I am also a modern witch, an ordained priestess and a practising Spiritualist medium. This new project makes room for my whole life.

Understand. Connect. Stand beside me.

Still Sacred brings together accessible cavernoma education, personal reflections, spiritual learning and my journey towards specialist care.

Help me work towards care in Germany

My personal fundraiser is intended to support specialist assessment, potential brain surgery, travel, accommodation and related costs. Surgery depends on clinical advice; no outcome can be guaranteed.

Read the campaign and check its current details:

gofund.me/30a6f0b1

Share the campaign. Learn seizure first aid. Help make invisible illness visible. Financial giving is always optional.

A personal fundraiser for Emma, not a registered-charity appeal. Still Sacred does not process donations. Campaign status has not been independently verified for this launch.
